About Towne

The Quarterly Newsletter of the Towne Family Association, Inc.

Newsletter Indexer: Daniel A Towne

"About Towne" is the official voice of the all-volunteer Towne Family Association (TFA), incorporated in Delaware in 1989 and comprised of descendants of William and Joanna (Blessing) Towne and those interested in their family's history.

William and Joanna immigrated with their family to Salem, MA, about 1635 from Great Yarmouth, England. In 1692 two of their daughters – Rebecca (Towne) Nurse and Mary (Towne) Eastie – were hanged as witches during the Salem witchcraft hysteria. A third daughter – Sarah (Towne, Bridges) Clayes/Cloyse – was jailed for witchcraft but escaped execution and was pardoned.

Unless otherwise specified by the source person or copyright holder, all submissions become the property of the association for purposes of publication and inclusion in historical files. "About Towne" is published quarterly: March, June, September and December.

The "About Towne" newsletter index is available on the TFA website. The index consists of two parts, one that contains names of all people mentioned in newsletter articles and one that contains all subjects and place names mentioned in the newsletter. In line with the new TFA project to catalog cemetery information, a special effort has been started in 2020 to ensure all cemetery information in the newsletter appears in the subject index.

If you would like to become a member, you may access the membership form on the TFA website, **www.townefolk.com**, or contact:

TFA Membership Coordinator Carolyn Cogswell
4375 Bankside Ave., West Bloomfield, MI 48323-1203
membership@townefolk.com

It is also possible to renew on-line at the TFA website, http://www.TowneFolk.com.

Document Format

Index is published as a PDF file. Items are listed alphabetically but can be searched using the Adobe Reader search function.

When possible, index entries contain the person's full name as given in the TFA Family Tree even though the newsletter entry may only include part of the full name.

This year's index revision includes Volume 44 of the newsletter. Information from the Volume 3 newsletter has been revised to make it consistent with the present criteria determining what information is included from the newsletter.

Many ancestors have the same name. To make it easier to determine which ancestor the index entry is referring to, new and revised Volume entries include the ID number for that person from the TFA Family Tree if it is available. The use of the family tree ID number also makes it easier to include entries for different people with the same name on the same page. For entries that do not have a TFA Family Tree entry additional information may be included to try to differentiate the entry.

Where possible descendants of William and Joanna (Blessing) Towne have a numerical designation after their name that denotes their generation.

Women are entered into the index by both their married and maiden names when possible.
